Our Mission

To deliver real and measured positive impact for our tenants by providing purpose-built housing to meet individual needs.

We are a registered Specialist Disability Accommodation provider committed to empowering extraordinary lives through high-quality disability housing. We work with people currently living in legacy homes, nursing homes, aged care facilities and hospital transition programs, supporting them to move into safe, purpose-built Good Housing homes where they can live with greater independence and choice.

These homes are thoughtfully designed to support independence, accessibility and comfortable living for individuals, while enabling support providers to deliver quality support.

We believe that great housing is the foundation for independence and wellbeing. At Good Housing, we focus solely on delivering quality homes while working alongside trusted support providers who deliver the care participants need.

By maintaining this clear separation between housing and support, we help ensure residents have greater choice, control and long-term stability in their homes and the communities they live in.

Our goal is simple: Good Homes, Good People, Good Partnerships and Good Outcomes for people.
